Description

There is the opportunity to do a sql injection, to see pieces of code, and the opportunity to see the passwords that should be hashed. A user should only see an error page as a maximum.

Steps to reproduce:

1. Go to <http://registratium.mobidev.biz/index.php/regaster>;
 2. Fill out all fields correctly except of the "Surname" field;
 3. Fill out "Surname" field by entering *** (quotes);
 4. Press "Submit" button;
