Description			
Originally reported by Frank <dunnoob>			
Table with no entries does not work, e.g., obsolete_by = { "type", "name", "range" }			
Inifile format should allow empty tables.

This is currently listed for S3_0 d3f, but as it's not addressing regressions from earlier version or finalizing new feature in S3_0, I won't consider this as S3_0 d3f blocker if it's not coming in time (I'm going to prune S3_0 d3f tickets at some point)

Actually empty table is accepted, but '}' must be on a separate line.
