Sprint/Milestone:	3.1.0		

Description

When ruleup (or ruledit for old format ruleset) is being run, FREECIV_DATA_PATH needs to contain the **old** datadir before current version's one for it to load the old version of the ruleset. Unfortunately this means that it finds also old version's ruledit/comments.txt before current versions one. That file should come from the current version we're updating to.

Proposed solution is to rename comments.txt in master as comments-3.1.txt. Then it would not be under the same name in different versions, but only current version's file would be found.

History

#1 - 2019-07-06 10:04 PM - Marko Lindqvist

- File 0060-Rename-comments.txt-as-comments-3.1.txt.patch added
- Status changed from New to Resolved

#2 - 2019-07-26 12:55 AM - Marko Lindqvist

- Status changed from Resolved to Closed
- Assignee set to Marko Lindqvist
